

# Life Cycle of an Apple

## Objective:

To correctly order the life cycle stages of an apple.

## Kindergarten Standards:

- W.K.2 I can share information that I have learned using a combination of pictures, talk, and writing
- K-LSI-1 I can compare the similar things that plants need to survive / I can talk about what plants need to survive

## First Grade Standards:

- RI.1.4 I can ask and answer questions about words or phrases that I do not know
- W.1.3 I can explain something that happened by writing about what happened first, next, and last
- SL.1.5 I can make drawings that give details about the things I can talk about
- L.1.5 I can get adult help to learn more about words
- L.1.5b I can give meaningful definitions of words

## Materials:

- Crayons
- Glue
- Scissors
- Attached Worksheet

## Lesson:

- After watching the virtual field trip, discuss the life cycle of an apple. Then describe each stage using the attached pictures. Have the students help give definitions/explanations for each stage.
- Then pass out the attached worksheet to each child and have them work in small groups, pairs, or independently to color, cut, and glue the pictures in the correct order.
- For first graders, have them choose one picture and write a sentence describing what happens in that life cycle stage.

Name: \_\_\_\_\_

Date: \_\_\_\_\_

**Directions:**

Color each picture. Then cut out the pictures and glue them in the correct order to show the life cycle of an apple.
